

# THIRSK FURNITURE NEWS

## DECEMBER 2010

**W**elcome to our Thirsk Furniture News Update. Here at Thirsk Furniture we've had a great year; the company has grown by 26 per cent compared to last year and as a result of this we have recruited more staff and we are reinvesting in the business to improve the service we offer and increase our capacity. Today we're covering some equipment news, how we plan on meeting customer requirements better and informing you all about our new premises. If you have any questions or feedback - please let us know.

## Equipment Update

In August we took delivery of an SCM Olympic K208 Edgebander. This state of the art machine carries out more processes, more quickly and with a superior finish compared to our previous edgebander. It's the fifth machine we've purchased since the business take over two years ago. This has reduced the labour time which in turn has reduced our prices for the production of table tops with laminate, PVC and hardwood edges.

## Egger Zoom - For Your Convenience

At Thirsk Furniture we are very conscious of the constant pressure on lead times so in the New Year we will be manufacturing 25mm Egger Zoom laminate tops with matching PVC edges to hold in stock for immediate dispatch. If our new service offering proves popular, in addition we intend to expand the range and offer a hardwood table top option - stocked unpolished ready to be finished to your requirements and delivered within a week.

We will notify you of finishes, sizes and prices as soon as the stock is ready.

## Announcement - New Premises

Early in the New Year we will be taking on a neighbouring premises especially to accommodate two polishing booths together with sizeable safe and clean storage space for finished goods. The intention is to polish furniture for other companies as well as improving throughput in our own workshops. Negotiations on the lease are in the final stages and we hope to be up and running by mid January 2011.

We will keep you fully informed of our new product offerings as they become available. Just watch this space!
